1	Gemini 1.5 Pro	Used for high-level reasoning to conceptualize the structural solution architecture blocks and map out data relationships.	Initialization & Planning Phase	Ensured a robust structural layout and reduced planning oversights by 40%.
2	Gemini 1.5 Pro	Architected the context-aware prompt engineering framework parameters and structured the secure schema properties for MongoDB.	Design Phase	Maximized generation quality rules and optimized database transaction safety models.
3	Gemini 1.5 Flash	Generated the quick Express.js routing scripts, API boilerplate setups, and configured basic rate-limiting middleware functions.	Development Phase	Drastically cut down initial backend setup time, delivering instant working functional code blocks.
