

Problem-Solution Fit

Project Name: CaptionAI: AI-powered social media caption generator

Date: 7 July 2026

Team Name: Anupriya

Maximum Marks: 5 Marks

1. CUSTOMER SEGMENT(S) [CS] • Solo small business entrepreneurs managing their own digital brand footprint. • Freelance social media managers balancing content operations across multiple client handles.	6. CUSTOMER LIMITATIONS [CL] • Budget: No capital to hire dedicated copywriters or external marketing agencies. • Devices: Primarily relies on running operations via mid-tier mobile phones and standard laptops.	5. AVAILABLE SOLUTIONS [AS] • Basic AI Chatbots: Pros: Free and fast text generation. Cons: Generates overly corporate, robotic outputs that require heavy manual editing.
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] • Pain: Severe writer's block and excessive time spent drafting engaging, niche-specific copy. • Frequency: Occurs daily with every single planned content post cycle.	9. PROBLEM ROOT / CAUSE [RC] • Entrepreneurship requires handling sales, support, and product development simultaneously, leaving zero dedicated time to master professional copywriting rules.	7. BEHAVIOR + ITS INTENSITY [BE] • Behavior: Manually hunting down formatting trends and copy-pasting generic hashtags. • Intensity: High; causes severe creative burnout and drop-offs in posting frequency.
3. TRIGGERS TO ACT [TR] • Staring at a blank publishing dashboard for over 30 minutes with an empty text container. • Missing the peak audience interaction window due to copy delays.	10. YOUR SOLUTION [SL] • CaptionAI: An intuitive, low-latency web application that uses structured prompt constraints to transform brief product notes into platform-optimized text copies with single-symbol hashtags instantly.	8. CHANNELS OF BEHAVIOR [CH] • Online: Instagram, LinkedIn, professional marketing forums, browser-based tools. • Offline: Solo co-working setups, local business networking workshops.
4. EMOTIONS BEFORE / AFTER [EM] • Before: Overwhelmed, anxious about low organic reach, and creatively drained. • After: Relieved, confident, and satisfied with a fully polished, platform-optimized layout.
