

Customer Journey Map

Project Name: CaptionAI: AI-powered social media caption generator

Date: 7 July 2026

Team Name: Anupriya

Maximum Marks: 2 Marks

Phase of Journey	Stage 1: Discovery & Awareness	Stage 2: Onboarding & Generation	Stage 3: Export & Evaluation
Actions (<i>What does the customer do?</i>)	The user searches online for fast caption tools and lands on the CaptionAI landing page.	The user inputs their product description, selects a platform layout (Instagram/LinkedIn), and clicks generate.	The user copies the single-symbol hashtags/captions, posts them to social media, and tracks post metrics.
Touchpoint (<i>What part of the service do they interact with?</i>)	Marketing landing page, project feature list, and promotional layout graphics.	Core application dashboard, text input fields, and the "Generate Copy" action button.	Output display container, one-click copy button, and the user feedback system.
Customer Thought (<i>What is the customer thinking?</i>)	"Can this tool actually save me time without making my brand sound like a generic robot?"	"Wow, this interface is clean. Let's see if it handles my target platform formatting correctly."	"The caption and CTAs look great! I wonder if my daily engagement numbers will go up."
Customer Feeling (<i>What is the customer feeling?</i>)	Hopeful but slightly skeptical about the low-latency text quality promises.	Relieved by the straightforward setup and excited to see immediate content options.	Satisfied with the quick output, though eager to see continuous conversion analytics.

Phase of Journey	Stage 1: Discovery & Awareness	Stage 2: Onboarding & Generation	Stage 3: Export & Evaluation
Process Ownership (<i>Who is in the lead on this?</i>)	Frontend Web UI Designer & Marketing Strategist	Backend Developer & LLM API Integration Engineer	Data Analyst & Quality Assurance Engineer
Opportunities (<i>How can we improve this stage?</i>)	Add a quick interactive preview component directly on the landing page before signup.	Include quick-toggle buttons for different brand voices (e.g., professional, energetic, casual).	Integrate direct-to-platform scheduling or a built-in analytics dashboard to track click rates.
